

ACOS3-8 Contactless

The ACOS3 card from ACS is a contactless microprocessor smartcard with 8K bytes of EEPROM memory. The high degree of security enabled by this card allows users to consider loyalty programs, identification, e-Purse and access control applications, especially when used alongside the ACOS6 Security Authentication Module (SAM).

ISO 14443 compliant, the ACOS3 contactless microprocessor card boasts a high-speed transmission rate of up to 848 Kbps. Featuring enhanced functions including Secure Messaging, Mutual Authentication, Session Key Generation, Secret Codes and Anti-tearing Mechanism, this card is especially designed for highly secure payment applications.

Plain white card.

Secure contactless microprocessor card with 8K bytes of memory and various security features

ACOS3 Contactless Cards

Technical Specifications:

Operating voltage: 5V DC +/-10% (Class A) and 3V DC +/-10% (Class B)

Maximum supply current: Up to 10mA

ESD protection: Up to 4 KV

EEPROM Capacity: 8 Kbytes

EEPROM endurance: 500 000 erase/write cycles

Data retention: 20 years

Operating temperature: -25degC to 85degC

Storage temperature: -40degC to 100degC

Manufacturer: ACS
