ACR39F PC drive bay reader + internal connector

The ACR39F USB reader from ACS is based on the popular ACR39 electronics, housed in a lightweight frame that fits comfortably into a standard PC 3.5" drive bay. This reader is fully PC/SC, CCID and EMV Level 1 compliant and supports all ISO 7816 microprocessor-based smartcards as well as many popular memory cards.

Ideal for many smartcard-based applications on desktop PCs, the reader comes complete with WHQL approved Windows drivers, as well as support for other operating systems such as Linux.

The ACR39F is a cost-effective way of incorporating a smartcard reader inside a PC for added convenience and security. This model has a smart black fascia and comes with an internal, detachable USB 2.0 cable to connect.

**A USB contact smartcard reader designed to fit in a standard PC 3.5" drive bay. Supplied with a detachable, internal USB cable.**
